

Domapé Bio

Domapé are a four-piece alternative rock band hailing from Norwich, in East Anglia. Formed during the lockdowns of 2020 and 2021, Dougie, Harry and Matt began jamming together and hashing through ideas as the world opened up again.

Forward 10 months and Domapé welcomed Josh into the fold, bringing much needed musical cohesion to the band with his guitar skills, composition ability and backing vocals. Since then the Domapé have continued to write and hone the songs down to as good as they can be.

Following a stint of gigs during the summer of 2023 that included a sell-out show and supporting Feeder, Domapé hit the ground running and have been receiving positive reviews and accolades.

Domapé have recently taken a break playing live to head to Fine City Recording Studios to record their first tracks for release intended for October 2023. Watch this space for further news and updates.
